IMPORTANT SAFEGUARDS

1. Read the instructions carefully before use and save them for future reference.

2. To reduce the risk of fire, keep textiles, curtains, or any other flammable material a minimum distance of 1 m from the air outlet.
3. Do not place the heater near a bed because objects such as pillows or blankets can fall off the bed and be ignited by the heater.
4. Always unplug heater when not in use. (This item may be omitted if the heater is provided with a clock-operated switch).
5. Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
6. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
7. Check your heater cord and plug connections:
 - a) Faulty wall outlet connections or loose plugs can cause the outlet or plug to overheat. Be sure the plug fits tight in the outlet.
 - b) Heaters draw more current than small appliances, overheating of the outlet may occur even if it has not occurred with the use of other appliances.
 - c) During use check frequently to determine if your plug outlet or faceplate is HOT!
 - d) If so, discontinue use of the heater and have a qualified electrician check and/or replace the faulty outlet(s).
8. Always disconnect the heater from the main supply when not in use and when cleaning.
9. Do not leave the heater "ON" unattended.
10. Never cover the heater as this may lead to risk of fire.
11. Keep the heater a distance of at least 90cm from any combustible material, such as furniture, curtains, bedding clothes or papers.
12. Do not attempt to open any part of the oil fins.
13. Keep the heater clean. Do not allow objects to enter the ventilation, as this may cause electric shock, fire or damage the heater.
14. Close supervision is required when any appliance is used near or by children.
15. Never allow the cord to touch wet or hot surfaces, become twisted or be within the reach of children.
16. Do not use outdoors.
17. Do not place on or near a hot gas or electric burner.
18. Never use the appliance with a damaged cord or plug or after the appliance has malfunctioned or been damaged in any way.
19. Never attempt to open any part or dismantle the controls. Responsibility for failure cannot be accepted if these instructions have been ignored.
20. Do not use the appliance for anything other than its intended use.
21. This appliance is intended for household use only.
22. Regulations concerning the disposal of the oil when scraping the appliance have to be followed.
23. Any repairs that need to be done to the heater must be referred to an authorized service agent only.
24. The appliance is not intended for use by young children or infirm persons without supervision.
25. Young children should be supervised to ensure that they do not play with the appliance.
26. If the supply cord is damaged, it must be replaced by the manufacturer or its service

agent in order to avoid a hazard.

27. The heater must not be located immediately below a socket-outlet.

28. Do not use this heater in the immediate surroundings of a bath, a shower or a swimming pool.

29. This heater is filled with a precise quantity of special oil. Repairs requiring opening of the oil container are only to be made by the manufacturer or his service agent who should be contacted if there is an oil leakage. Regulations concerning the disposal of the oil when scrapping the appliance has to be followed.

30. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

31. Children should be supervised to ensure that they do not play with the appliance.

Disposal Information

Separate collection.

This symbol means the product must not be discarded with the general household waste. There is a separate collection system for these products.

Should you want to dispose of this item please do not put it with the household waste. Used electrical and electronic equipment and batteries must be made available for separate collection.

Private households may return their used electrical and electronic equipment to designated collection facilities free of charge. Identify where your local collection points are and return the product there. (Facilities are usually available at the municipal waste site, your electrical retailer, or your local authority may provide separate collection from the household.)

By disposing of this product correctly you will be providing positive help to the environment.
